## True Economy

The difference in  
cost between an alum  
baking powder and  
the highest-class  
cream of tartar  
baking powder would not  
amount for a family's  
supply to one dollar  
a year.

Dr. Price's is the  
standard cream of tar-  
tar baking powder. It  
makes the food deli-  
cious and healthful.

NOTE.—You cannot, if you  
value good health, afford to  
use cheap, low-grade, alum  
baking powders. They are  
apt to spoil the food, they do  
endanger the health. All  
physicians will tell you that  
alum in food is deleterious.

## FUNERAL GLOOM

Pervades the Camp of the Faith-  
ful This Morning and a Pleas-  
ant Word is at a Big  
Premium—a Wet  
Blanket.

The democratic primaries went  
through Wednesday with all the  
pomp and circumstance of a well  
regulated funeral.

There were not many mourners  
out, but there was gloom a plenty.  
By 4 o'clock it had become so in-  
tense that Chief Buffington quit  
eating Garrison's raw potatoes, and  
went out to see a man. Isbell, the  
Lone Wolfe, struck his trail and  
followed. Likewise did the rest  
of the faithful, and they did not  
return until they felt some better.

As soon as the votes were counted  
they felt worse. After wrestl-  
ing with 122 ballots, cast by citi-  
zens of Vinita and other places,  
the following ticket was announced  
as nominated:

Mayor, John T. Gunter.  
Recorder, Walter H. Martin.  
Attorney, S. F. Parks.  
Marshal, H. E. Ridenhour.  
Assessor, Marva Daniels.  
Collector, H. C. Ballard.  
Treasurer, T. M. Buffington.  
Street Commissioner, Frank Billings-  
lea.

Aldermen, Edgar Smith, J. W.  
Sanders, C. O. Berry, L. P. Isbell, L.  
P. Garrison.

Executive Committee, W. P. Thomp-  
son, Sam Frazer, Davis Hill, W. J.  
Baber, F. S. E. Amos.

This was the slate originally  
scheduled, the "extras" being  
used to give a "voice of the peo-  
ple" tone to it. The voice was  
heard before the first ballot was  
cast, so everything went through  
very nicely as the "people" stayed  
away, refusing to be hoodwinked  
by such a palpable scheme.

The gloom has not been dissi-  
pated as yet. There is nothing  
joyful about "132 votes" in the  
town of Vinita.

This morning a pleasant word  
was at a big premium in the camp  
of the "regulars" and no smiles  
were quoted. Even the "I tell  
you how it happened" post mor-  
tem prophet has lost his voice and  
wise look. About the only con-  
solation that can be offered is,  
"Cheer up—the worse is yet to  
come."

## SOME TROUBLE.

Secret Opposition of Territo-

hood for Oklahoma.

## THE HEAVENLY TWIN

Meets With the Same Obstacles  
as Confront the Indian Terri-  
tory, in Its Fight for a  
Measure of Self-Gov-  
ernment.

The citizens of Oklahoma have  
at last discovered that one of the  
most consistent enemies of state  
hood is Delegate Dennis Flynn,  
whose pitiable lament that the  
people of Oklahoma were not  
properly grateful for his strenuous  
efforts to obtain statehood for the  
heavenly twin, lately filed the  
columns of the territory press.

They have also tumbled to the  
fact that the "machine" is against  
any change from the present easy  
conditions.

The Oklahoma, which has  
never been duped by Flynn's pro-  
testations of loyalty to the cause,  
has this to say about the present  
prospects:

"Does any sane man presume  
that Dennis Flynn, drawing a sal-  
ary of five thousand dollars per  
year and perquisites, Bill Grimes  
laying next to twenty thousand  
per year, Tom Ferguson in the  
gubernatorial chair, and Harry  
Thompson hugging a fat thing, are  
worrying their brain matter to  
find an early avenue leading them  
out of jobs and into the ranks of  
private citizenship? Not much.  
Mary Ann Nor is Frank Greer,  
with a territorial printing graft,  
and a horde of lesser lights with  
their facial office enveloping the  
federal order, sanitarian stock  
jobbers, grafters and leaches han-  
dling for a jar loose."

"If the people of Oklahoma are  
depending upon these statesmen  
for statehood, may the good Lord  
deliver them."

There seems to be a community  
of interests between the twins,  
though Oklahoma is feeding home  
talent, while in this section it is  
the ubiquitous Kansans who are  
willing to sacrifice their places at  
the pie counter on the altar of en-  
franchisement.

Special to Daily Chieftain.

Muskogee, I. T., March 19.—  
The Cherokee nation introduced a  
great amount of testimony today  
in the case of F. M. Dawson et al  
vs the Cherokee nation applica-  
tions for enrollment as Cherokee  
citizens. This is a famous case  
and involves three hundred thou-  
sand dollars worth of property and  
the applications of sixty families.

The Cherokee nation alleges that  
these parties were admitted in  
1883 by the Cherokee commission  
through fraud. Testimony was  
taken at Fort Gibson today. P.  
G. Reuter and J. O. Rosson of the  
Dawes Commission, W. T. Hutch-

## ROCK ISLAND

To Penetrate the Territory in Search  
of Coal.

A party consisting of Vice-Presi-  
dent H. A. Parker, Chief Engi-  
neer J. H. Peters and assistants,  
of the Chicago, Rock Island and  
Pacific Railway Co. were in South  
McAlester yesterday on matters  
pertaining to the extension of the  
road from El Reno to that place.

A permit to enter the territory  
was recently granted by congress,  
and surveying corps are now at  
work locating the proposed exten-  
sion.

The Rock Island has heretofore  
depended on other roads to furnish  
fuel contracted for with the terri-  
tory mines. It is the intention of  
the road, in connection with its  
extension, to own and operate  
mines. The new road will parallel  
the Choctaw.

## FAST SERVICE

On Frisco System was In-  
augurated with Interest-  
ing Ceremonies Yes-  
terday.

## TWO NEW TRAINS

Arrive in Vinita on Time After  
Cutting Several Hours From  
Old Schedule to Eastern  
and Southwestern  
Points.

"At exactly 12:38 Monday morning  
the World's Fair Special" which  
had been speeding from Texas on  
its initial run, came to a stop at  
the Frisco station.

At 1:27 a. m. the "Meteor" the  
new west bound annihilator  
came rushing in from the east on  
time to the minute, and the new  
fast train service on the Frisco  
system, had become a definite  
factor in Vinita's communication  
with eastern and western points.  
The new service was inaugurated  
with interesting ceremonies at  
both ends of the great system.

Prominent officials of the road  
and a large assemblage of people  
were present, when the throttles  
responded to the touch of the en-  
gineers and the ponderous wheels  
that were destined to cut hours  
from the old running time rapidly  
gathered speed and were soon  
rushing over the rails in their race  
against time.

At one minute past 12 o'clock  
the new time card published in  
another column of the Chieftain  
took effect on the entire Frisco  
system. The Frisco, with the  
opening of the new line, now has  
two entirely separate tracks to  
Texas and has become a danger-  
ous factor in the great shipping  
resources of the Lone Star state.

By the new service Vinita re-  
ceives an additional east and west  
bound train and is put in very  
close communication with all east-  
ern and southwestern points.

With this additional service six-  
teen passenger trains on the two  
roads run out of Vinita each day,  
which is a suggestive commentary  
on the growing importance of the  
town.

## A Legacy of the Grip

Is often a run-down system. Weak-  
ness, nervousness, lack of appetite,  
energy and ambition, with disordered  
liver and kidneys follow as an at-  
tack of this wretched disease. The  
greatest need then is Electric Bitters,  
the splendid tonic, blood purifier and  
regulator of stomach, liver and kid-  
neys. Thousands have proved that  
they wonderfully strengthen the  
nerves, build the system, and restore  
to health and good spirits after an at-  
tack of grip. If suffering, try them.  
Only 50c. Perfect satisfaction guar-  
anteed by People's & A. W. Fore-

## TIME TO STRIKE.

Fielding Lewis Says Moon  
Bill is Gaining Support-  
ers in Congress.

## ADVOCATES SENDING

A Capable Representative to  
Washington to Work for the  
Passage of the Bill When  
it Goes Before the  
Senate.

Mayor Fielding Lewis of South  
McAlester, has returned from  
Washington, where he has been in  
the interest of the Moon bill. In  
an interview with a representative  
of the Capital, he has summed up  
the situation by saying:

"With proper nourishing the  
Moon bill will become a law."  
Mr. Lewis said that when he  
arrived in Washington he found  
that there were many persons  
there from Oklahoma and this terri-  
tory, all of whom were working  
for some pet scheme and it seemed  
there was almost an endless  
chain of confusion in regard to  
matters pertaining to territorial  
legislation, but soon this was  
changed. The matter was sifted  
down to two or three measures.  
The three bills most in favor and  
most seriously considered then  
were the Stephens bill, the Curtis  
bill and the Moon bill, and subse-  
quently was introduced the Scott-  
Soper measure.

Of all these, the Moon bill soon  
became the most favorable meas-  
ure, the Stephens bill has been  
abandoned by its supporters, the  
Curtis bill and the Scott measures  
are held up in the hands of the  
committee on Indian affairs and  
will not, in my opinion, be re-  
ported upon until the Moon bill is  
out of the way. This bill was acted  
upon by a subcommittee which  
went most exhaustively into the  
affairs of the territory and finally  
reported and was then presented  
to the house by Congressman  
Moon as the unanimous report of  
the committee, and it is now be-  
fore that body and will likely  
come up for action in regular  
course in about two weeks. Con-  
gressmen have looked askance  
upon all county seat measures and  
when that was urged it was said  
that the establishment of counties  
and county seats was a matter that  
would properly belong to the leg-  
islature and that is why that im-  
portant question was left out of the  
Moon bill.

The work on such a bill as this  
is done altogether in committee  
and when that committee reports  
such a measure with its unani-  
mous approval it is usually sat-  
isfactory to the vast majority of  
congressmen and they will vote  
for such a measure without ques-  
tion. For this reason and that the  
house is anxious to dispose of the  
matter at this session I think the  
bill will have plain sailing in the  
house and will pass that body  
without any trouble. It will then  
go to the senate where it will be  
taken in hand by the senate com-  
mittee to which it will be practi-  
cally new matter and of course the  
senate committee will want to be  
informed as to its provisions, and  
it is there that the opponents of  
the measure will try to get in their  
work, and either get it so amend-  
ed as to be unsatisfactory or have  
it held up indefinitely. That is  
where we will need to do our best  
work and that is why in my op-  
inion the territory should have an  
accredited representative on the  
ground, fully able to answer all  
questions and objections that may  
come up, and be able to check  
mate any move made to defeat  
the bill by outside influence. Such  
a man should have nothing else to  
do and have no personal axe to  
grind but should have the full  
support of the entire territory.

## MURDER AT GIBSON,

Ral Davis Shot to Death by Charley  
Dick.

As the result of an old feud,  
Charley Dick and Ral Davis en-  
gaged in a gun game at Gibson  
station Thursday which resulted  
in the killing of Davis.

The men had been enemies for  
some time, and when they met  
Thursday renewed their quarrel,  
which quickly led to the shooting.  
Deputy Marshal Adams was  
sent from Muskogee to the scene  
of the shooting, but Dick had  
taken to the woods immediately  
after the shooting and could not  
be found.

## What They Want.

The convention of Choctaws and  
Chickasaws at Atoka prepared a  
memorial to congress, which makes  
a plea for the equal division of  
lands, the closing of the tribal  
rolls; that all lands be allotted as  
soon as practicable; that all funds  
and annuities due the tribes be  
paid out in per capita payment,  
following allotments; urges the  
federal government to protect the  
Indians against "wrongful invasion,  
and opposes the rider to the In-  
dian appropriation bill limiting  
the Indians to 320 acres of land.

An amendment to the effect that  
when lands are allotted no reser-  
vation be made of the coal and as-  
phalt lands, was lost by a big ma-  
jority, after a heated debate.

## A Woman's Words of Praise.

Neusio Falls, Kans., Nov. 13, 1900.  
Pepsie Syrup Co., Monticello, Ill.  
Dear Sirs:—For almost fifteen years  
I suffered from indigestion, and last  
winter thought I would die, when my  
doctor, Dr. A. J. Lleurance of this  
place, advised me to try Dr. Caldwell's  
Syrup Pepsin, which I did, and two  
bottles cured me. It not only relieved  
me, but it cured me so that I have  
not been troubled since. If anyone  
should offer me \$500 for the good  
Syrup Pepsin has done me I would  
not think of taking it. No one can  
take your medicine without being  
convinced of its more than wonderful  
cures. I recommend it to all my  
friends as a laxative and stomach  
remedy. Yours with gratitude, Mrs.  
J. MORGAN. Sold by People's Drug  
store.

## Agricultural Station.

Representative Curtis has intro-  
duced a bill in the house author-  
izing the secretary of agriculture  
to establish and maintain an agri-  
cultural station in the Indian terri-  
tory. At present there is no agri-  
cultural station in the territory  
and the people are desirous of  
securing such a station in order to  
extend to the farmers the same ad-  
vantage now being enjoyed by the  
agriculturalists of the states.

kogee, to carry freight between  
Fort Gibson and Choctaw, has ar-  
rived at Fort Smith from Cairo,

The vessel was over nine months  
en route.

The arrival of the boat has oc-  
casioned a great deal of discussion  
among the river men, many con-  
tending that it can be run only  
about two weeks during the year.

The barge is in command of  
Capt. W. F. Cotton, who years  
ago run a boat between Fort  
Gibson and Little Rock, and who  
is confident that the present ven-  
ture will be a success.
